Welcome to SPRS Viewing CMMC Assessment Tutorial, for SPRS Acquisition Professionals.

In this tutorial, Government users will learn how to check if a supplier has an Affirmed CMMC Assessments within SPRS.

Click CMMC Assessments from the left-hand menu to access the Criteria Search tab for CMMC Assessments.

To search by Unique Identifier (UID), enter one or more UIDs separated by commas and click the Search button.

CMMC Assessment tabs are organized by Corporate CAGE Hierarchy Highest Level Owner (HLO). To find a specific CAGE within the Hierarchy select the Hierarchy button in the Reported HLO column. The Details button in the CMMC UID Column opens a pop-up that contains a print-friendly display of the information associated with that assessment.

All CMMC records must have a current affirmation to be considered Current. Records with expired affirmations will be red and considered Not Current. Within the Criteria Search results, there are different CMMC Status Types.

Starting with Final Level 1 Self-Assessment, once affirmed, this record is Current for one year from the Assessment date.

CMMC Level 2 Conditional Self-Assessments, once affirmed, are Current for 180 days and will need to be updated and reaffirmed. If the record is updated and not reaffirmed, the status will reflect "Pending Affirmation" until the affirmation is completed but is still considered Current.

CMMC Level 2 Final Assessments, once affirmed, are Current for three years but require annual reaffirmation. If the vendor fails to reaffirm the assessment by the deadline, it will show "No CMMC" status until the affirmation is completed and will not be considered Current.

Both CMMC Level 2 (C3PAO) and CMMC Level 3 (DIBCAC) Conditional and Final Assessments will be visible once affirmed. Government users will not see Pending Assessments except previously affirmed Conditional Assessments in the process of being updated.

Records highlighted in red are expired records, records that need to be affirmed again by the contractor's Affirming Official, records that have been retracted by the vendor, or records that have been deleted per eMASS request. Any record not highlighted in red can be considered as Current.

"No records found" will be returned if no records match the criteria searched or a CMMC assessment has yet to be entered for that CAGE.

To find additional CMMC Status Type definitions, the SPRS User Guide for Government is located here: https://www.sprs.csd.disa.mil/pdf/SPRS_Government.pdf

Another way to search for CMMC assessments is by CAGE(s) or a range of assessment dates. Entering a list in these boxes must be comma delimited. To search by company name, type an entire or a partial company name into the search box. Multiple search criteria items can be used in a single search to narrow down results.

The multiple subtabs represent the different CMMC assessment levels: CMMC Level 1 (Self), CMMC Level 2 (Self), CMMC Level 2 (C3PAO), and CMMC Level 3 (DIBCAC). Next to the title of the subtab is the total number of records in each tab.

Sorting options in both views are available for any column by clicking the three vertical dots in the column title.

Columns may be sorted Ascending/Descending.

Columns may be toggled on/off.

Columns may be filtered.

The Guidance tab provides General Guidance as well as CMMC specific Information and contains links to the FAR clause 52.204-21, supplemental guidance, and an email address for additional questions.

SPRS can be contacted by going to the website which is located at the URL listed here <https://www.sprs.csd.disa.mil>

The Help Desk is available Monday through Friday 6:30am to 6:00pm Eastern Time.
